*Lets us take this opportunity to wish you a happy, healthy and prosperous New Year!*

The power of confidence can't be underestimated. If you're self-conscious and afraid to smile because of your teeth, you should know that it doesn't have to be that way. We would love to help you feel happy, secure and confident when you laugh or smile!

Place a tick beside the questions below and bring it along to your next appointment and we will discuss your options for a confident smile.

- Would you like your teeth to look whiter and brighter?
- Have you any teeth you think are unsightly, misshapen or out of line?
- Do you have any silver fillings that you would prefer were tooth coloured?
- Do you have an old, worn denture, or a denture that looks false and feels false?
- Do you have any old crowns that now do not match your other teeth or have dark lines at the gums?
- Do you have any missing teeth that you would like replaced to improve your smile and bite?

*Don't forget to bring this along with you to your next appointment.*
